## Soil Stimulant Used on Trees

**Without Soil Stimulant on May 18**

**With Soil Stimulant on May 18**

The trees above were planted to honor patients that lost their lives in their battle with cancer. Flowers are planted at the base of the tree on the left.

Ironically weather further affected trees in the area last year and growth was limited as parts of both trees died.

The trees were planted 2 years ago with the tree on the left being bigger. The tree on the right was given 6 applications of soil stimulant at a 10 to 1 ratio over the 2 years.

May 18, 2010 the pictures above were taken
